Lectoescritura

Los ejercicios de asociación desempeñan un papel crucial en el desarrollo de la lectoescritura en niños con autismo.

Estos ejercicios permiten a los niños establecer conexiones significativas entre palabras, imágenes y conceptos, lo que facilita su comprensión y el aprendizaje de todo lo que le rodea.

En este cuadernillo, te ofrecemos plantillas recortables que podrás utilizar para practicar con tu pequeño sus capacidades visuales y cognitivas. Ya que al vincular palabras con imágenes, tu pequeño podrá visualizar y comprender mejor el significado de las palabras, y a desarrollar su lectoescritura.

Lectoescritura

Lectoescritura

Recomendaciones:

Imprime, recorta y enmica las imágenes y plantillas para protegerlas y utilizarlas las veces que lo necesites.

Además, puedes hacer más dinámica esta actividad al pegar un trozo de velcro en cada ficha, y en las casillas de las plantillas de cada una de las casas, para posteriormente pedir a tu pequeño que pegue las fichas donde corresponden.

De esa forma, no solo estarás ejercitando el desarrollo de su lectoescritura, sino también su motricidad fina.

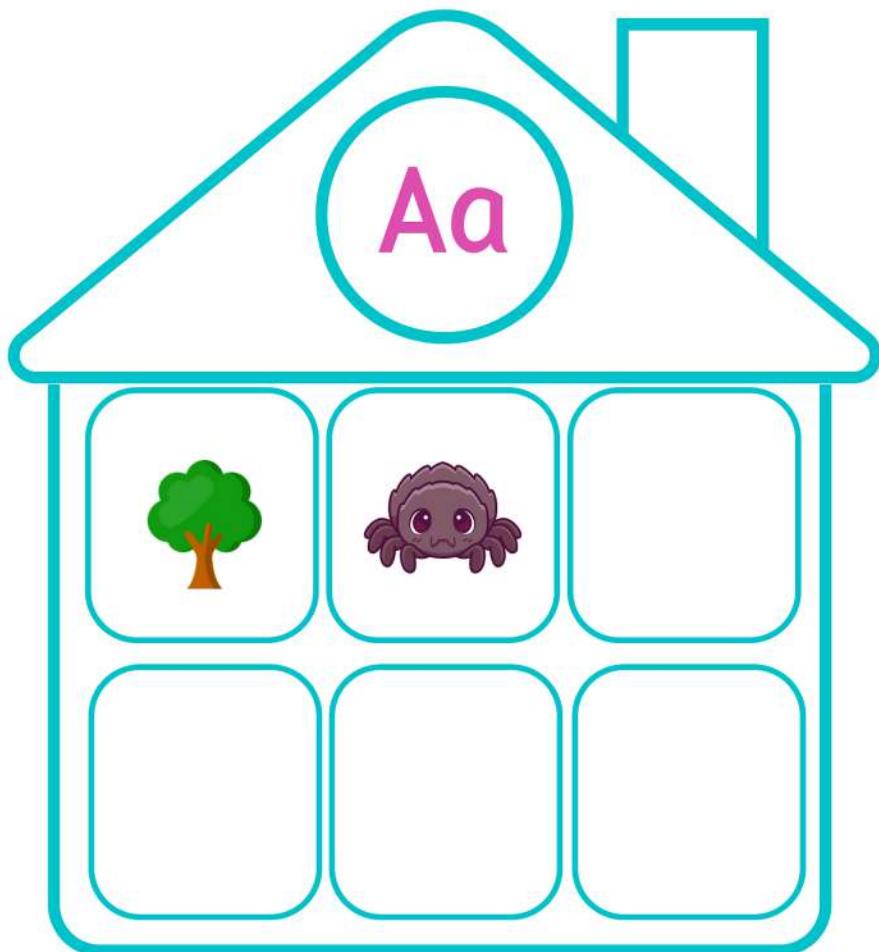

Lectoescritura

Instrucciones:

Recorta y enmica los pictogramas, mézclalos y pide a tu pequeño colocarlas correctamente en la casa con la letra inicial en la que corresponden.

Ejemplo:
